**WELCOME TO THE LASU HALL
MANAGEMENT System (LASU - HMS)
DOCUMENTATION.**

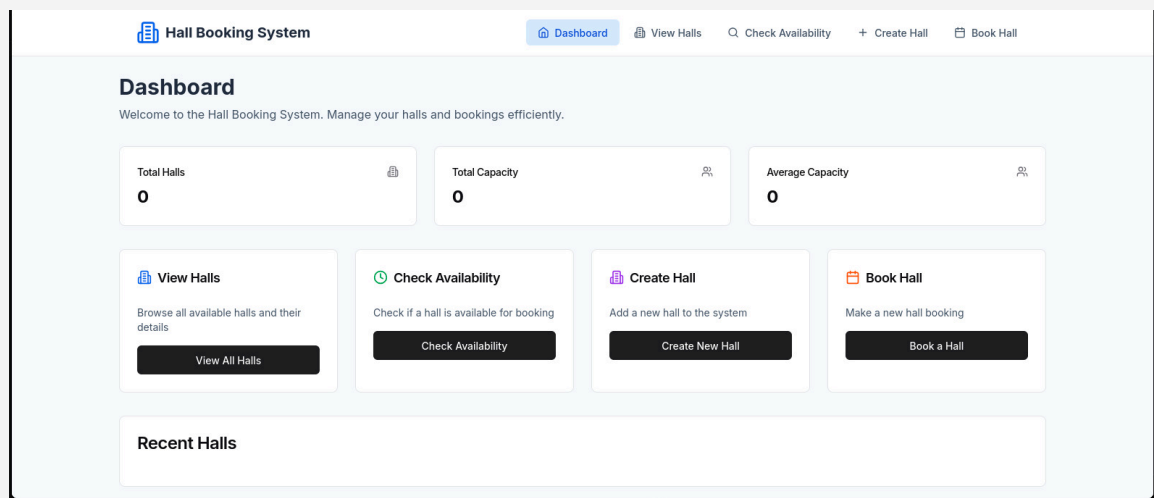

**THIS GUIDE WILL WALK YOU THROUGH
HOW TO USE THE PLATFORM TO
REGISTER, BOOK A HALL, AND MANAGE
YOUR LASU-HMS PROFILE.**

1. Getting Started.

To access the system, open your browser and go to the web address which will be provided by the administrators. . Ensure you have a stable internet connection.

2. Dashboard overview.

Once you log in, the dashboard serves as your control center. From here, you can view the total halls available for booking, the total capacity of all halls available, the average capacity of each hall, additional details like facilities, and any system notifications. The dashboard is designed to be intuitive, providing quick access to actions like booking a hall, updating your profile, or checking announcements from the hall administrators. The dashboard keeps all essential features within easy reach, making navigation seamless and efficient.

3. Viewing all available halls.

The "View Halls" button allows users to browse through all available halls and their capacity options. By clicking it, you'll see details such as hall names, location, facilities available, and other relevant information to help you make an informed booking decision. It's a quick way to explore your accommodation options before proceeding to book.

Refresh Halls

Hall Name	ID	Capacity	Location	Facilities
Lecture Hall A	ID: 1	Capacity: 100	Building 1 Building 1	projector, AC
Lecture Hall B	ID: 2	Capacity: 50	Building 2	whiteboard
Science Hall 1	ID: 3	Capacity: 400	Bola Ahmed Tinubu Hall	AC, Projectors, Smart-Boards, Tables and Chairs
Buba Maruwa	ID: 4	Capacity: 1200	LASU gate	AC, Projector, Chairs
Buba Maruwa	ID: 5	Capacity: 1200	LASU gate	AC, Projector, Chairs
Hall 1	ID: 6	Capacity: 300	New Science Complex	AC, projector, chairs

4. Checking the availability of a hall.

The "Check Availability" feature lets users see the current status of each hall. When you click the button, a dropdown menu appears listing all available halls. Once a hall is selected, you'll immediately see whether it is booked or free. If the hall is already booked, the system displays key details including the number of bookings, the start time, and the end time of the current reservation. This helps students plan accordingly and avoid scheduling conflicts.

The screenshot shows the 'Hall Booking System' interface. The top navigation bar includes 'Dashboard', 'View Halls', 'Check Availability' (active), 'Create Hall', and 'Book Hall'. The main heading is 'Check Hall Availability' with a subtext 'Check if a hall is available for booking'. On the left, under 'Select Hall', there is a 'Choose a Hall' dropdown menu with a placeholder 'Select a hall' and a 'Check Availability' button. On the right, the 'Availability Result' section shows 'Results for' followed by a green box stating 'No Current Bookings' and a blue box stating 'No current bookings for this hall - Available for booking!'. A 'View Raw Data' link is at the bottom.

A. A free hall.

This screenshot shows the same interface as the previous one, but with a hall selected. The 'Choose a Hall' dropdown now displays 'Lecture hall C' with details: 'Capacity: 50 | Location: New Science Complex' and 'Facilities: AC, projector, chairs'. The 'Check Availability' button is now black. The 'Availability Result' section on the right is updated to show 'Results for Lecture hall C' with the same 'No Current Bookings' and 'Available for booking!' messages. The 'View Raw Data' link remains at the bottom.

Total bookings: 2

Hall: Lecture Hall A

Capacity: 100 people

5. Registering a new hall.

The "Create Hall" button is primarily used by administrators to add a new hall to the system. When clicked, it opens a form where you can input essential details such as the hall name, its capacity (i.e. how many students it can accommodate), the facilities available (like Wi-Fi, air conditioning, power supply), and the hall's location on campus. This feature ensures the hall database remains up to date and accurate for student bookings.

The screenshot displays the 'Create New Hall' form within the 'Hall Booking System' interface. The top navigation bar includes links for 'Dashboard', 'View Halls', 'Check Availability', 'Create Hall' (highlighted), and 'Book Hall'. The form itself is titled '+ Create New Hall' with the subtitle 'Add a new hall to the booking system'. It contains four input fields: 'Hall Name *' (placeholder: 'Enter hall name'), 'Capacity *' (placeholder: 'Enter maximum capacity'), 'Facilities' (placeholder: 'e.g., Projector, AC, WiFi'), and 'Location' (placeholder: 'Enter hall location'). A 'Create Hall' button is positioned at the bottom of the form.

6. Booking a Hall.

The "Book Hall" button allows users to reserve a hall for use. After clicking the button, you'll be prompted to select a hall, enter your User ID, choose the start time and end time for when the hall will be in use, and specify the purpose of the booking (such as a meeting, study session, or event). If the selected hall is already booked during the chosen time, the system will automatically display an error message, preventing double bookings and ensuring fairness for all users.

Frequently Asked Questions (FAQ)

1. What happens if I try to book a hall that's already reserved?

If a hall is already booked during your selected time slot, the system will display an error message. You'll need to choose a different time or select another available hall.

2. Can I edit or cancel a booking after submitting?

Currently, the system does not support editing or canceling a booking after it has been submitted. If you need to make changes, please contact the admin directly.

3. Who can register new halls?

Only authorized administrators or staff members can register new halls by providing the hall name, capacity, location, and available facilities.

4. Is there a limit to how many times a hall can be booked in a day?

There is no specific limit, but a hall cannot be double-booked during overlapping time periods. Each new booking is checked for availability to prevent conflicts.

5. Do I need an account to use the system?

No login is required. Users can book halls by simply entering their user ID and other required details in the booking form.
